FAQ

Q1: Is this slime safe?

A: It is made of pure, safe raw materials that are non-toxic and formaldehyde-free and it complies with European standards and features a hypoallergenic fragrance.

Q2: What should I do if the slime feels sticky?

A: Slime may become softer in warm temperatures. Try these tips:

Play with larger pieces instead of holding a small amount for too long.

Place the slime in the refrigerator for about 20 minutes before play.

Always wash hands before and after use.

Q3: What should I do if the slime becomes dry?

A: After lots of bubble play, slime may feel firmer. Let it rest in the jar until the bubbles settle. If it feels dry from moisture loss, add a very small amount of warm water or slime softener, knead gently, and let it sit overnight.

Q4: How do I store the slime after bubble play?

A: Remove the inner sealing insert if needed to create more space. Place the slime back into the jar and close the lid tightly after play.

CLEANING GUIDE

If slime gets on clothes, carpet, or hair, try the following tips:

- **For dried slime on clothing:**

Let the slime harden, gently remove the excess, then wash as usual with laundry detergent.

- **For wet or gel-like slime on clothing:**

Soak in warm water and gently rub until the slime loosens. Avoid adding detergent before the slime starts to come off.

- **For slime in hair:**

Use warm water and gently work it out. Do not pull hard.

- **For slime on fabric or carpet:**

Use warm water first. For stubborn residue, a small amount of white vinegar or lemon water may help. Test on a hidden area first.

DIY Sticker Sheet

Hi! I'm UniMimi!

I'm a traveling unicorn magician. I collect treasures on my journeys and keep them in my magic horn. Let's use them to decorate slime together!

Wake up,
Sleepy Slime!

1 STRETCH & SQUISH

Wake up your slime buddy with gentle stretching and squishing!

2 Make a Donut

Use the mold to create a yummy donut slime treat!

Tip: Give the clay a quick knead before you create—it helps keep it from sticking.

4 SPRINKLE GLITTER MAGIC

Add a little sparkle magic and make your slime shine!

3 DECORATE YOUR SLIME

Open the magical treasure pack — it's the secret to making your slime extra fun!

5 MIX & SQUISH

Stretch it, mix it, and squish it together! Your slime will transform into a soft, buttery texture!

Play with fun slime and say bye-bye to boredom!

6 Decorate & Store

Pick your favorite mood sticker for your jar, then get ready for your next adventure!
