

GROOVED TRACING

Jarmelo

FAQ

Q: Will the writing disappear? How long does it take?

A: Yes. The ink is designed to fade automatically, usually within about 20 minutes. Fading time may vary depending on temperature — warmer conditions make it disappear faster.

Q: Can I use other refills?

A: We do not recommend using other refills. Non-matching refills may not fade, which prevents reuse of the pages.

Q: What if the pen doesn't write smoothly?

A: Try scribbling gently on blank paper a few times to restart the ink flow. If the issue continues, replace the refill.

Q: Can this pen be used for notes or important documents?

A: No. The ink fades over time. This pen is for hand-writing practice only.

HOW TO USE THE PEN GRIP

TIPS:

For best results, position the pen grip about 1 in (2.5 cm) above the pen tip while writing.

After use, you can remove the grip or slide it upward before putting the cap back on.

CORRECT PEN GRIP

Let the pen lean against the base of your index finger

Place your thumb and index finger in the grip slots

Rest the pen on your middle finger

Gently curl your ring finger and pinky inward

Keep your wrist relaxed
